

SARTHAK MEHTA

COMPUTER SCIENCE STUDENT | CYBERSECURITY ENTHUSIAST

Barnala, Punjab | 6284711230 | sarthakmehta.wca@gmail.com

LinkedIn: linkedin.com/in/sarthak-mehta-5693493a5 | GitHub: github.com/sarthakmehta7 | Portfolio: sarthakmehta.onrender.com

SUMMARY

Computer Science Engineering diploma student with hands-on experience in cybersecurity, networking, web development, and machine-learning fundamentals. Built and deployed multiple practical and interactive web projects, with a career focus on cybersecurity and secure software.

PROJECTS

PHISHGUARD AI — PHISHING DETECTION PLATFORM

Cybersecurity, AI/ML, Web Development

- Built a practical platform focused on detecting suspicious URLs and phishing websites using security indicators and AI/ML techniques.
- Designed an accessible interface to demonstrate real-world cybersecurity concepts.

Technologies: Python, Flask, AI/ML, HTML, CSS

Live: <https://phishguard-ai-4cxn.onrender.com/>

COSMOX — INTERACTIVE ASTRONOMY LABORATORY

3D Web Development, Interactive Visualization

- Developed an interactive 3D experience for exploring the solar system and astronomy concepts.
- Focused on immersive visualization, animation, and browser-based interaction.

Technologies: JavaScript, Three.js, HTML, CSS

Live: <https://cosmox-kn1j.onrender.com/>

INTERNET THROUGH TIME — INTERACTIVE WEB HISTORY

Interactive Web Experience, Educational Technology

- Created an interactive experience exploring the evolution of the Internet from ARPANET to the modern digital era.

Technologies: JavaScript, HTML, CSS

Live: <https://internet-through-time.onrender.com/>

GAMEVERSE — INTERACTIVE GAMING UNIVERSE

Interactive Web Development

- Built an immersive interactive gaming experience focused on dynamic visuals and a modern user interface.

Technologies: JavaScript, HTML, CSS

Live: <https://gameverse-skrl.onrender.com/>

EDUCATION

Sant Longowal Institute of Engineering and Technology (SLIET) | Diploma in Computer Science Engineering

2024–2027 (Expected) | Latest Semester Result: 8.67

Y.S. School, Barnala | Class 10

Completed 2024 | 81.4%

EXPERIENCE

Cyber Security Industrial Trainee | ThinkNEXT Technologies Pvt. Ltd., Mohali

June 2, 2026 – July 2, 2026

- Studied networking, Kali Linux, malware and attack concepts, ethical hacking, and penetration-testing methodology.
- Practiced reconnaissance, scanning, vulnerability assessment, and security testing concepts in controlled learning environments.

TECHNICAL SKILLS

Programming: Python, Java, C++, C, JavaScript, Assembly

Cybersecurity & Networking: Kali Linux, Nmap, Wireshark, Burp Suite, OWASP ZAP, Networking

Web & Tools: HTML, CSS, Flask, Three.js, Git, GitHub

Data & ML: Pandas, NumPy, scikit-learn, Machine Learning Fundamentals

CERTIFICATIONS & LANGUAGES

ThinkNEXT Cyber Security Industrial Training • IBM SkillsBuild: Protecting a Device with Malwarebytes • Cybersecurity Job Simulations (Forage)
